

When I spoke at the last PV Town Council meeting, I talked about the Political Action Committees (PACs) here in Prescott Valley trying to take over the Town. These PACs are weaponizing Next Door. They have become “Content Moderators” to control what is and is not seen publicly. In other words, they control free speech. They post what they want the citizens to see. If you respond in opposition to what they say, they will take down your comment to make sure that no one else will see it.

It’s funny how many of these people were instrumental in organizing the No Kings protest, and yet they are implementing and acting out *exactly* what they are protesting.

But they don’t stop there. If these PACs see you as an opponent to their political agenda, they have the authority to suspend your account and to, all-out, *ban you* from Next Door. They have done this to the Mayor and Council Members, as well as numerous residents of Prescott Valley. Your voice does not matter to them. They are heavy proponents of censorship.

I am advising the citizens of Prescott Valley to look for other social media sources that allow for free speech for their news on what is happening here in PV. There are credible Prescott Valley sites on Facebook, Instagram, and others.
